

InfoStat working group meeting at GREF 2018

30th May, 16.00 – 17.30 – Hotel Alcron Prague (Meeting room TBC)

Agenda:

Part 1 (10 minutes) – General information and updates

- Surveys
 - Update from the InfoStat Figures Survey
 - Update from the InfoStat/eGambling special topics survey
- Updates from GREF Board
 - GREF communications plan – potential advantages for InfoStat
 - Better alignment between working groups
 - Better alignment between the working groups and the conference
- Future meetings
 - Meeting in Poland in the Autumn
 - Meeting in conjunction with GREF Lecture at ICE 2019

Part 2 (20 minutes) - Quo Vadis GREF; Quo Vadis InfoStat?

- What kind of InfoStat do we want? As can be seen in the literature distributed in conjunction with the GREF Business Meeting on the 1st of June, the Board asks members to consider what the essence of GREF is, and what GREF could be in the future. This is therefore a natural point in time to consider the organisation of InfoStat, and what it is that we ought to achieve.
- Participants are encouraged to share their thoughts on what kind of activities InfoStat could deliver in the future. This might include hosting seminars/masterclasses, where we invite guest speakers to share insights on the gambling market or other related fields. We could also consider widening the scope of the InfoStat group, and looking more closely at the “information” element of our mandate. We could also just leave things as they stand.

Part 3 (45-60 minutes) – roundtable discussion

- What are the latest developments in your market? Please share some of the key developments in your market, which you believe will be of interest to other participants. This can also include new projects underway within your authority, or the status of proposed legislation.

Part 4 – Any other business

InfoStat Co-Chairs (23rd May 2018):

- Michael Herborn (Danish Gambling Authority) – mh@spillemyndigheden.dk / +45 7237 3830
- Flóra Felső (Netherlands Gaming Authority) - <mailto:ffelso@kansspelautoriteit.nl> / +31 61 426 7011
